INFORMATION SHEET

Certificate IV in Disability – CHC40308

This qualification is designed to develop your practical skills and knowledge to develop services and programs to meet the emotional, physical and social needs of people with disabilities. You will learn skills in advanced communication, empowerment techniques and how to design processes to support daily living activities. You will also learn how to design and deliver programs that are accessible and enhance community integration.

Students will develop an understanding of the legal and ethical requirements for working in disability services. As part of this qualification you will undertake a supervised work placement where you will be able to apply the skills and knowledge you have learned.

** There are entry requirements to be met before studying this course:*

Career Opportunities
